Since 2002, when it was created, SUNET has had the principal aim of satisfying the purposes of its clients.

We constantly dedicate to the field of design and communication, in order to contribute to the increase of our clients' company and brand, leading to the improvement of their image in the market and taking the most of the technological solutions now available.

Characteristics of our professional team are the complete reliability and dynamism, as well as creativity, simplicity and a constant attention to the changes in this type of work.

We also want to provide HIGH LEVEL SERVICES to all clients, from the big joint-stock or Ltd company to the minor entrepreneur, with highly competitive prices due to our little size and flexibility in the projects.

Our skill and activities

We design and realize various communication strategies to achieve our clients' aims in all merchandise or cultural areas.

Respecting the clients' requests, our agency works to achieve the greatest positive result, offering its experience with proposals and constant innovations.

We also dedicate to the continuous research and development of new solutions and services in design and communication, in order to allow our clients to always have a wide choice of opportunities and strategies to achieve their aims, according to the budget.

Thanks to our Workflow and to a proven system of procedures and documents, we can follow and monitor the project at any time, in order to avoid any unexpected events that could compromise the achievement of the final aims.

We do all this together with our clients to obtain a project that make us proud of our work, as an evident proof of our professional competence.
